

I. About CREC

Founded in May 2015, China Renewable Energy Council (Wuxi) has had more than 110 member companies focusing on the renewable energy including solar, wind, new energy vehicles and so on. As a Non-Governmental Organization, CREC aims to promote Chinese renewable energy's production and application, and international exchange and cooperation.

CREC is headquartered in Wuxi, which is the National New Energy Industrial Base and the biggest PV production and export base in China, with the advanced technology, the complete chain and the independent innovation environment. Almost all of the giant renewable energy companies gather in Wuxi and around area.
